Jody Beck biography

Jody Beck has been sewing, crafting, and creating ever since she can remember. She picked up quilting in 2000 & started teaching and writing patterns in 2003. She's been privileged to have her Jody's Jems patterns sold in shops from Hawaii to Key West, FL and has customers who love her designs from as far away as Australia and the UK. "The Art of Quilt Design" is a power point presentation of how Jody created her Jody's Jems designs. She hopes it will inspire you to design your own quilts. She has lived in 10 states with her husband of 38 years and has taught quilting in Arizona, New England, and Pennsylvania since 2003. Jody will also demonstrate her technique for making quick and easy quilts. Feel free to check out her website at www.jodysjemsquilting.com and her YouTube channel at JodysJemsQuilting.
