Hi Audrey... here is my bio. We are getting everything else together for you.

Penny made her first quilt in junior high with scraps from clothes and leftovers from projects her Mom made. But it wasn't until 2000 – after a career as a reporter and a university career counselor—that she truly began quilting. Penny truly appreciates all forms of quilting, especially hand quilting, but she lacks the patience for such an undertaking. However, from the start, Penny wanted to work her quilts from beginning to end, so the purchase of her Long Arm in 2014 was a natural progression. Since then, Penny has designed her own award-winning quilts and earned many more awards for her custom quilting of client quilts, including multiple awards for Exemplary Machine Quilting (Computer Guided) at both the AQG and Tucson quilt shows. Penny's quilting style is eclectic: a bit traditional, a bit modern, a bit of everything!
